Over 40 Years of Excellence

Calumet City Plumbing Company, Inc. was founded in 1967 as a service and repair contractor. During our history, we have steadily grown into the quality firm we have become today. We recognize the need to provide competent 24 hour emergency repairs as well as new construction and alterations. We realize the need to offer a single solution for all your utility repairs, extension, and new installations.

Our company is supplied with a complete line of equipment and labor force to fulfill bid requirements, private contracts, service maintenance repair and emergency repairs for all of your residential, industrial, commercial, and municipal needs.

We welcome the opportunity to provide you with the same level of high quality satisfaction which continues to build our reputation.

Company

Calumet City Plumbing Company, Inc. was founded in 1967 as a service and repair contractor. Since then, the company logo has changed, the yard has expanded, and another building has been built, but our commitment to quality, service, and employee retention has been maintained.

We have steadily grown and added many services. We recognize the need to provide competent 24 hour emergency repairs as well as new construction and alterations. We realize the need to offer a single solution for all your utility repairs, extension, and new installations.

Our company is supplied with a complete line of equipment and labor force to fulfill bid requirements, private contracts, service maintenance repair and emergency repairs for your industrial, commercial, municipal and residential needs.

We welcome the opportunity to provide you with the same level of satisfaction which continues to build our reputation.

Meet The Team

Michael Giglio

Owner

mgiglio@calumetcityplumbing.com

The second generation President and Owner of Calumet City Plumbing Co., Inc. since 1993. Michael attended Roosevelt University and achieved his BA in Business Management in 1987. As a licensed Plumber, Cross Connection Control Device Inspector, and Plumbing Contractor in both Illinois and Indiana, Michael has been very active in both his company as well as the regional plumbing industry. Over the past decade he more than doubled the square footage of the current location and invested in tools and equipment

which now has a replacement value in excess of a million dollars.

From 1994-1996, Michael served as a Trustee of the Plumbing Council of Chicago, an Industry fund for the promotion of the plumbing industry and as a Board Member of the Plumbing Contractors Assoc. of Chicagoland and Cook County. Other memberships include the National Assoc. of Plumbing, Heating, and Cooling Contractors, American Public Works Assoc., American Water Works Assoc., Underground Contractors Assoc., and the Chicago Southland Chamber of Commerce.

Mike Calomino

Sewer & Water

mcalomino@calumetcityplumbing.com

Supervisor of operations for all outside underground utility repairs, maintenance and new construction. Employed with Calumet City Plumbing since 1972, Michael carries experience, which few can parallel. As a licensed Plumber and Cross Connection Control Device Inspector, certified in Underground Excavation Competency and Confined Space Entry, Michael has become a local reference to both municipal public works directors and civil engineers.

With a common sense approach, Michael has knowledge and experience in virtually all ground conditions, shoring protections, lift stations, storm water management systems, sanitary sewers, domestic water/fireman piping, and emergency repairs and remediation. Michael is well versed in line drawing assessments as well as design/build and value engineering techniques.

Wayne Rossiano

Interior Plumbing

wrossiano@calumetcityplumbing.com

Supervisor of interior plumbing construction, renovations, and detailed design/build projects. Wayne is a licensed Plumber in both Illinois and Indiana in addition to his certification as a Cross Connection Control Device Inspector. Employed with Calumet City Plumbing since 1981, Wayne has managed complex upgrades, booster stations, domestic water piping, stormwater piping, sanitary sewer piping, and turn-key plumbing systems in commercial, educational, industrial, and municipal applications.

Due to his dedication and experience, Wayne is consulted on a regular basis by plumbing engineers and property managers.

Municipal

We realize municipal work requires a higher level of accountability. Whether it's a watermain break in a subdivision or a meter replacement inside a home, when we are working for you, we know what it takes. Our employees are trained, licensed, & well-versed in customer relations. You receive certified payroll for every job we do.

Some of the municipalities we have worked for include: Arlington Heights, Bridgeview, Brookfield, Burnham, Calumet City, Chicago Heights, Country Club Hills, Dixmoor, East Hazel Crest, Elmwood Park, Ford Heights, Glenwood, Lansing, Midlothian, Phoenix, River Grove, Robbins, South Holland, Willowbrook.

- 24/7 Sewer & Watermain Repairs
- Water/Sewer Dis-connects
- Fire Hydrant Replacements & Repairs
- Water Meter Replacement Projects-Individual & Citywide
- Storm Water/Sanitary Cross Connection Inspections-Individual & Citywide
- Backflow Prevention Inspections, repairs & new installations & Surveys-Individual & Citywide
- Interior Municipal Building Plumbing Repairs & Upgrades
- Police Dept. Jail Cell/Penalware Plumbing Repairs & Maintenance
- Full Service Drain Rodding & Plumbing Repairs
- Pipe Thawing
- Directional Drilling 1" – 6"
- Watermain Tapping 1" – 12"

Water Meter Projects

City-wide water meter replacements

We have replaced over 40,000 water meters since 1995. In cooperation with ME Simpson Co., we mail out the letters, schedule the appointments with your residents, and replace the meters throughout your town. Our installers are licensed, certified, and trained in customer service with you in mind.

- Arlington Heights 18,000
- Bradley 260
- Elmwood Park 6,200
- Leyden Township 3,000
- River Grove 2,300
- Robbins 1,000
- South Holland 8,100
- Willowbrook 1,700

City-wide sanitary/storm water separation inspections

As sanitary/storm water separation has become an important issue, our plumbers have provided detailed inspection surveys while on site.

- Crete
- Steger
- Thorn-Creek Sanitary District

Residential

"My father told me to call, he said, 'he used your father'." That's right, our company has a second generation owner servicing second generation customers. We have built our reputation on satisfying you, our customer. We appreciate your business. We will strive to earn and keep it.

Some of the services we provide include:

- Sewer & Drain Line Rodding & Hydro-jetting
- Sewer Telescoping & Locating
- Drains Flushing & Jetting
- Clean Out Stations Installed
- Sump Pump & Ejector Pumps
- Grease Trap/Catch Basin Repairs & Replacements
- Flood Control
- Battery Operated Back-Up Pumps
- Plumbing Fixture Repairs & Replacements
- RPZ Backflow Testing & Repairs
- Gas Piping/Repairs/Leak Locating
- Hot Water Heaters
- Low Water Pressure Restoration
- Frozen Pipe Thawing

Flood Control - This truly is a specialty here at CCP. We know what works and what doesn't! Most Overhead Sewers installed & completed in 1 day.

- Written estimates provided at no cost
- Licensed/Bonded/Insured

Check us out at the Chicago Better Business Bureau.

Emergencies

At Calumet City Plumbing, we take after-hours emergencies seriously. Our main phone 708-868-0074 is transferred to a "live answering" service who will promptly get in contact with one of our Trained On-Call Dispatchers. We have scheduled On Call Plumbers and Outside Underground Crews ready to go.

- Sewer back-up at 6PM?
- Watermain break on a Saturday night?
- Pipe burst at 2AM?

We realize what it means to you when the water goes off and your equipment stops. Or that you can't operate without fire protection. When we say, "We'll have a crew on site within 2-4 hours"-We mean it! We have the labor, equipment, and materials ready to go. We also have the necessary subcontractors ready after hours: Leak locating, concrete saw cutting, aggregate/hauling, and temporary cold patch so it's road ready. We don't do it all, but... at CCP, we don't say "We do it" unless we've done it.
