Village of Hazel Crest

Lead Water Service Line Replacement Program

2026

DEAR CURRENT RESIDENT:

The Village of Hazel Crest has selected Calumet City Plumbing (CCP) as the contractor for the Village's Lead Water Service Line Replacement Program.

Through this program, eligible homeowners may receive a **FREE lead water service line replacement at no cost to the resident.** The average value of this work is approximately $11,000, which is being covered through the program.

As we prepare for this project, we are asking residents to provide their current contact information so we can keep you informed throughout the process. This will allow us to notify you when work is scheduled to begin in your area.

At this time, we are asking all residents to provide their current contact information to ensure they receive important updates about the project.

To participate in the program, we need your contact information as soon as possible. Please visit our website and complete the **Contact Information Form**, or contact our office using the information below:

Calumet City Plumbing Phone: 708-868-0074 ext. 615 or Website: www.CCP1967.com

Once the project reaches your neighborhood, a representative from Calumet City Plumbing will contact you to schedule a required site survey. The survey must be completed before any replacement work can be scheduled. During the survey, we will review the project, verify the work area, explain the replacement process, and answer any questions you may have.

Thank you for your cooperation and participation in this important program. We look forward to working with you to complete this project safely and efficiently.

Sincerely,

CALUMET CITY PLUMBING
EST. 1967
